Capstone Portfolio

• Questions which are to be answered after finalizing the project(Part A)

1. How many topics we thought before finalizing the project topic?

Ans: Though selecting such a project which is based on social cause was a bit difficult but then though, we went through many topics, some of them are listed below:-

➢ Pocket PC
➢ Adv Blocker
➢ Signal Jammer

and many more but seeing the present situation of women we choose the above topic viz "Women Safety Model".

2. Did we consider all the technical fields related to branch of our diploma programme?

Ans: Programming, Hardware knowledge, Digital system, Electronics engineering, this are handful knowledge we have achieved during the course. While routing for our project we kept all this points in our mind and decided that the project we have selected is good for us to carry on.

3. why we found present project topic as most appropriate?

Ans: we created chart according to the ideas we got

Topic	Difficulty	Helpfulness	Reasons for Rejections/Dissaproval
Pocket PC	Easy	This idea is helpful for the people who does not afford or do not have enough space to keep a computer.	This idea in spite being affordable was extremely easy and does not require any technical skill to complete this king of project.
Signal Jammer	Medium	This idea is helpful in schools and colleges to stop students from using their smart phone inside the campus	This idea was eventually great, but this was already created may times before and was already taken in practice by many schools and colleges already.

Adv. Blocker	Medium	This idea is helpful for everyone surfing internet because it will reduce the loading time of the	Even if we hate advertisement but we cannot deny that for blogger and website creators it's a major

		page/application.	source of earning and by obstructing it we didn't wanted to create an obstacle for our fellow creator.
Emergency Wallet	Hard	This idea is helpful as it will help the society to build a safe environment for womeneverywhere	The main reason for selecting this project was this was the most useful among all the options we thought, even if it was hard but it was a worthy idea to take a risk.

4. Wheather all the group members agreed on the present project topic?If not ? what were the reasons of their disagreements?

Ans: Yes,all of our group members agreed on the present project topic. As all of the members are mature enough to understand the necessity, requirement and depth of the project.

5. Whether the procedure followed in assersing alternatives and finalizing the project topic was correct? If not,discuss the reasons?

Ans: Yes we followed all the procedures.

6. What were the limitations in other alternatives of project topic?

Ans: Here are the topics and limitation,

1. Pocket PC: This idea in spite being affordable was extremely easy and does not require any technical skill to complete this king of project.

2. Signal Jammer: This idea was eventually great, but this was already created may times before and was already taken in practice by many schools and colleges already.

3. Adv. Blocker: Even if we hate advertisement but we cannot deny that for blogger and website creators it's a major source of earning and by obstructing it we didn't wanted to create an obstacle for our fellow creator.

7. How we formed our team?

Ans: Our team was formed by the technical requirements of all the tasks we must perform,

1. We needed a person with good knowledge of writing reports to create great paperwork of the project.

2. We needed a person with good social and communication skills for the presentation.
3. We needed a person with good knowledge of market for the all the requirements we will need during the project.

4. We needed a person with good knowledge of programming for developing a program to perform the required the task.

8. Whether we faced any problem in forming the team? if yes then what was the problem and how was it resolved?

Ans: No,we didnt faced much difficulties in forming the group as we found the persons of same wisdom without struggle.

9. Am i the leader of our project team? If yes,then why was i chosen ? if not,why i could not become the project team leader?

Ans: No,I am not the leader of our team, we have choosen our leader on the basis of two major qualities(Yash Kulkarni).
1.He has overall technical knowledge.
2.He persues leading quality.

10. Do i feel that present team leader is the best choice available in the group ?if yes , then why ? if not,then why?

Ans: Yes, presently after seeing my group i can say that not only myself but my group members too made the best choice in selecting their leader.

11. According to me who should be the leader of the team and why?

Ans: According to me,we have selected the leader whose qualities match as required for a leader,therefore I can conclude I selected the best.

12. Can we acheive the targets set in the project work within the time and cost limits?

Ans: Yes, we can, we had already scheduled all the work and can do it in time and estimated cost.

13. What are my significant good/bad sharable experiences while working with my team which provoked me to think? what i learned from experiences?

Ans: My experience with these people is great they share every thought and idea without any hesitations, sometime things go bad, but we are a team, and we manage it very well. I learnt to be calm and my patience improved significantly.

14. Any other relection which i would like to write about formation of team and finalizatin of project tile, if any?

Ans: I am having great time with my group everything is going as planned, everyone is doing their job perfectly, for me this is best group we can ever form.
